## Occupational Health and Safety

Tracking occupational health indicators allows Maryland to measure the baseline health of worker populations

In 2012, **51,900** work-related injuries and illnesses were reported by employers and **19,400** of those cases missed days of work due to those injuries and illnesses. There were **72** work-related deaths.

In 2012, more than **14** in **100** Maryland workers were employed in industries at high risk for occupational mortality

For more information see Occupational Health Indicators #1, 2, 3, 15, and 16 at: <http://phpa.dhnh.maryland.gov/OEHFP/EH/SitePages/occupational-safety-and-health-in-maryland.aspx>
